

## Simen Academy Programs:

### 1. Scrum Master Bootcamp

- **Description and What You'll learn:** This bootcamp is aimed at individuals or IT professionals willing to learn more about the scrum master role within an organization. In fact, This bootcamp is designed to teach you everything you need to know about the scrum master job and the knowledge you need to know to pass the PSM I (Professional Scrum Master) Exam. We will cover topics such as the scrum framework, sprints, product backlogs, and agile estimation. You will also learn how to lead and manage scrum teams effectively.

We will be using Scrum.org's Professional Scrum Master I training materials, which have been developed by some of the top scrum experts in the world. These materials are based on the latest scrum practices and principles and will give you the skills and knowledge you need to be a successful scrum master.

**Duration:** 8 weeks

- One Lecture session of two hours every week
- One office hour session of one hour every week

#### **Prerequisites:**

- Fluent in English
- Basic Computer Skills

### 2. IT SUPPORT BOOTCAMP
